

A WIFE KISSED.

A French fiddler and his wife, who gained a livelihood by teaching the art of dancing, were on board a steamer. They got short of funds, and having got run out in the last place where they had stopped, were "changing their spots," for a more favorable opportunity to engage in their profession of teaching. The Frenchman was extravagantly fond of his wife and withal very chary of her, often boasting that no man would be allowed by her to take the small liberties with her charms which are usually winked at by husband. But a little affair occurred, which shook the poor man's belief in the delusion.

Soon after the starting of the boat he went into the cabin and was soon in conversation with the captain. Discovering that the captain was a bachelor, Frenchy was profuse in sympathy, declaring that he should die of grief if it were not for the company and caresses of his wife.

"Oh as for that," said the captain, "I have the company of ladies much of the time, on board; and the best of it is, they are all willing that I should indulge in a little kissing with them sometimes."

"You mean you kiss 'em all?" said our hero. "I bet you five dollars you no kiss my little woman."

"It's done!" replied the captain. The Frenchman took out his wallet, but could not find the amount. "I find I have no money, captain; but I bet this fiddle (holding up the instrument) no man ever kiss my little woman."

"Well," replied the captain, "I'll bet my ship and the whole cargo against your fiddle, that I can kiss your wife in two hours from now if you will bring her into the cabin and then retire yourself."

"I goes it—you lose your ship and cargo, sir."

Accordingly, Frenchy brought down his wife telling her that the captain wished to see her, and added—

"Take care of yourself, little woman; I don't know what kind of a man this captain is."

The Frenchman retired from the cabin; but though he felt quite sure that his wife would repel indignantly any attempt which the captain might make to gain his bet, yet he was a little fearful of what might happen. He thought he might keep his wife in view of him by playing and singing a little. So going to a respectful distance from the cabin door, he commenced to sing, accompanying himself with his favorite instrument:

"Be true, my love, be true, my love, Be true, my love, be true, my love, And the ship and cargo's ours."

After he had finished, the captain said to the lady—

"Your husband seems extremely anxious about you—I suppose it would kill him to have another man kiss his wife, wouldn't it?"

"I don't know—suppose you try it!"

The captain did try it, most assuredly, and the "little woman" returned it as heartily. Then, turning her eyes to the cabin door, she sang in a sweet voice, a reply to her waiting spouse:

"You're late my love, you're late my love He kissed me once, he kissed me again— My dear, you've lost your fiddle!"

The little Frenchman burst open the door, caught up his wife, and carried her off sweating vengeance on all sea captains generally, and the Yankees in particular. It is no more than justice to the captain to add, that he did not take the fiddle, but was perfectly satisfied with the other result of the bet.

Go it boys!—The Cincinnati Commercial says: Many of the coffee-houses are managing lately to sell brandy according to law, without serious difficulty to themselves, or inconvenience to the absorbents. Bottles of brandy, of various sizes, nicely corked and sealed, and ranging in price from fifteen cents to one dollar, are displayed, for sale, on the counter, and an individual inclined to indulge, has only to buy his liquor at one restaurant, and go to another to drink it.

Hickory Nut Oil.—Hickory nut oil, is considered equal to the best lard or sperm oil for burning or machinery, is manufactured by Mr. Warren Eastbrook of Dayton, in this State.—*Er.*

In our boyhood's days "Hickory Oil" had a reputation among good old dames for making boys lively and uncious.—After an application the machinery of the genus would run quite smoothly for some time. We have a vivid recollection of several "doses."—*Port. Tribune.*

A FACT WORTH KNOWING.—Wild recommends that butter should be kneaded with fresh milk, and then with pure water. He states that by this treatment the butter is rendered fresh and pure in flavor as when recently made. He ascribes this result to the fact, that butyric acid, to which the rancid odor is owing, is readily soluble in fresh milk, and is thus removed.—*Journal of Industrial Progress.*

A NEW VEGETABLE.—It is said that the *Thunberg*, or Sandwich Island potato, has been introduced into cultivation in several of the Southern States. It is described as a "delicious vegetable," and the plant is very productive. The editor of the San Antonio Texas says that a gentleman in that vicinity raised six bushels of the article upon a piece of ground fifteen feet square.

Brigham Young is building two large and beautiful houses adjoining that which he occupies now in Salt Lake City, to accommodate his increasing family. He now rejoices in between fifty and sixty wives, and from forty-five to fifty children. Elder Kimball, one of the Mormon Apostles, has between 60 and 70 consorts.

"Entered at the Custom House?" said Mrs. Partridge, pondering on the expression; "I don't see how vessels ever got in; but I am glad that the collector cleared 'em right out again. It will learn them better manners next time, I think."

Fruit Trees—Good Fruit.

THE CITIZENS OF McARTHUR, and vicinity have at last an excellent opportunity to obtain one of the greatest luxuries of life by a small expense and a little attention. There is nothing conduces more to the health, comfort and happiness of a family, as plenty of good ripe fruit, and the effects of Ornamental Trees on the mind ever produces cheerfulness; then why not set out all the vacant parts of our lots in Ornamental and Fruit Trees. Mr. Gnos offers for sale Trees and Grapes—Apples at 20 cts. per tree, insured; Grapes, best varieties, at 25 cts. per graft, insured; the best Cherry, Pear, Apricot and Plums that can be obtained, at 60 cts. per graft, insured; two of the finest varieties, at 75 cents per tree; Huckleberry seedling, the finest and largest in the United States, 25 cts. per dozen or \$2 per hundred. Staple and Fancy Stationery.

I am confident that I would be for the interests of dealers in this vicinity, to make their purchases of me, instead of going or sending East. The difference of time, the cost of transportation, with the advantage of frequent orders for small quantities, make it more economical as well as more expeditious to purchase in this market.

I invite buyers to examine my stock, and compare my prices with those of Booksellers in Cincinnati, or elsewhere.

School and Classical Books.
All the kinds in use, at the lowest rates.

A Complete Assortment of Law and Medical Books; Miscellaneous Books.
All the New and Standard Publications.

I have also, in connection with my Book Store, an extensive Bindery, where Blank Books of any size and Pattern of superior quality, suitable for County Offices, Banks, Furnaces, Insurance Companies, &c., are made to order.

Staple and Fancy Stationery of all kinds. WALL PAPERS, CURTAIN PAPERS, AND BORDERING.

I offer the largest and best stock ever brought to our city, and will sell them either at Wholesale or Retail, at as low rates as any house West of the Mountains. I have all kinds, from the richest Gilt to the commonest kind manufactured. I purchase them directly from the manufacturers, and can sell them very low to the country trade.

It will afford me pleasure to show my goods, and I shall spare no efforts to render entire satisfaction.

Booksellers, country dealers and private libraries supplied at the very lowest rates, in large or small quantities.

I shall be happy to receive orders, assuring those who send, that they will be filled promptly. Particular attention paid to orders by Mail, or otherwise, for quantities, or single volumes.

PROCLAMATION.

PULVERMACH'S
Hydro-Electric Voltaic Chain
A NEW and NOVEL mode of applying a powerful remedial agent, so constructed as to be worn under the garments, next to the skin, producing a constant uninterrupted current of Electro-Magnetism, effecting

IMMEDIATE RELIEF
from the most acute pain, and also a permanent cure of all

NERVOUS DISEASES.
It seldom has failed to furnish almost instant relief, and a FINAL PERMANENT CURE by being used according to direction, to the following diseases:

Rheumatism, Uterine Pains, Paralysis, Polipitation of Heart, Painful & swelled joints, St. Vitus' Dance, Neuralgia of the Face, General Debility, Disease of the Spine, Pains of the Chest, Deafness & Blindness, Hysterics, Dyspepsia, All Diseases that are caused by a deficient amount of Nervous Fluid, are greatly relieved, if not permanently cured simply wearing the chain for a few hours each day.

BE IT UNDERSTOOD that it is not claimed that it cures all diseases, but only those for which it is recommended, and moreover, we boldly claim and defy, that no medical agent of any kind has performed so many cures during the last year, of those diseases just named as

PULVERMACH'S ELECTRIC CHAINS.
And to prove this assertion we defy any person to produce so many well authenticated certificates of Scientific Physicians and intelligent patients as may be found in a pamphlet of 36 pages, to be had gratis of the agent in this Town.

The Electric Chains were first introduced in France in 1850, and after being subjected to the most thorough and rigid trial, by the first medical men in Paris, they were found to possess strong & marvellous powers in relieving pain, wherever applied, and by their influence were introduced into the hospitals of that city, and also secured by letters patent by the French Government.

They are now introduced in almost every Hospital in England, Germany, Austria, Belgium, and patented in those countries, where they have become the

MOST POPULAR CURATIVE AGENT IN THE WORLD!

They were first introduced in the United States about one year since, and went through with the same trial as in Europe, and were at once introduced into every Hospital in New York, where they are now in daily use, effecting even more wonderful cures than had ever before been awarded them. They are highly recommended by Prof. Valentine Mott Van Buren, Post, and others, who have published their views of their power and value in several of the medical journals in that city, and are also in the daily practice of recommending their use to patients. A full account of their opinion may also be found in every pamphlet, and sent to the address of any person in the State, applying (post paid) to the agents. The Chains can be sent by mail, with full description for use.

Price of Chains, \$3 and \$5.
Physicians are politely invited to call and examine their construction, and pronounce upon their merit.

ONE WORD MORE TO INVALIDS.
No person need fear that they will not accomplish just what it is claimed they can do, and all persons who have become disgusted with a constant pouring down of patent nostrums (bottled swill) are kindly and politely invited to give them a trial.

CARE TO LADIES. Ladies who are enfeebled, are requested not to wear them for a great length of time, for by so doing, miscarriage is frequently produced.

N. B.—One Chain will last for years and lose none of its electric power by use, can be applied to either adult or child. For sale in all the principal cities of the U. S.

J. STEINERT, Gen. lea Agent.—N. Y.
All communications (Post paid) addressed to S. S. DEMUTH, McArthur, Ohio, Agent for Vinton and adjoining Counties, will receive prompt attention.
